Research articles

Effects of historical mining activities on surface water and groundwater – an example from northwest Arizona: Rössner U 224
Geophagy: who eats soil and where do possible contaminants go?: Sheppard SC 109
Heavy metal retention in secondary precipitates from a mine rock dump and underlying soil, Dalarna, Sweden: Lin Z, Herbert Jr RB 1
Long-range atmospheric transport of trace metals: the need for geoscience perspectives: Rasmussen PE 96
Microclimatic characterization of a karstic cave: human impact on microenvironmental parameters of a prehistoric rock art cave (Candamo Cave, northern Spain): Hoyos M, Soler V, Cañaveras JC, Sánchez-Moral S, Sanz-Rubio E 231
The effect of distribution of iron-oxyhydroxide grain coatings on the transport of bacterial cells in porous media: Knapp EP, Herman JS, Hornberger GM, Mills AL 243
Toward 2050: the past is not the key to the future – challenges for the science of geochemistry: Fyfe WS 92

Cases and solutions

A comparative mineralogical and geochemical study of sulfide mine tailings at two sites in New Mexico, USA: Boulet MP, Larocque ACL 130
Analysis and remedies of landslides of cut slopes due to the presence of weak cohesive layers within stronger formations: Al-Homoud AS, Tubeileh TK 299
Chemical weathering in soils from the glacial Lake Agassiz region of Manitoba, Canada: Aide MT, Cwick GJ 115
Controls on As, Pb, and Mn distribution in community soils of an historical mining district, southwestern Colorado: Hudson TL, Borden JC, Russ M, Bergstrom PD 25
Detrital transport of metals by glaciers, an example from the Pinchi Mine, central British Columbia: Plouffe A 183
Early-indicator signals of groundwater contamination: the case of seawater encroachment: Melloul AJ, Goldenberg LC 279
Endangering of the Upper Jurassic karst-fissured aquifer in the Krakow Upland (southern Poland): Rózkowski J 274
Environmental study of the Amman-Zerqa Basin Jordan: Awad M 54
Geochemical characterization of a karst polje – an example from Sinjsko polje, Croatia: Prohic E, Peh Z, Miko S 263
Geochemistry, genesis, and health implications of fluoriferous groundwaters in the upper regions of Ghana: Apambire WB, Boyle DR, Michel FA 13
Geological factors affecting the distribution of trace metals in glacial sediments of central Newfoundland: Klassen RA 154
Groundwater pollution due to discharge of industrial effluents in Venkatapuram area, Visakhapatnam, Andhra Pradesh, India: Subba Rao N, Gurunadha Rao VVS, Gupta CP 289
Mercury in lake sediments of the Precambrian Shield near Huntsville, Ontario, Canada: Rasmussen PE, Villard DJ, Gardner HD, Fortescue JAC, Schiff SL, Shilts WW 170
Metal-residence sites in lavas and tuffs from Volcán Popocatépetl, Mexico: implications for metal mobility in the environment: Larocque ACL, Stimac JA, Siebe C 197
Mineralogical study of base metal tailings with various sulfide contents, oxidized in laboratory columns and field lysimeters: Shaw SC, Groat LA, Jambor JL, Blowes DW, Hanton-Fong CJ, Stuparyk RA 209
Numerical simulation of the influence of management alternatives of a projected reservoir on a small alluvial aquifer affected by seawater intrusion (Almuñécar, Spain): Padilla F, Benavente J, Cruz-Sanjulián J 72
Pore water geochemistry near the sediment-water interface of a zoned, freshwater wetland in the southeastern United States: Donahoe RJ, Liu C 143
Some problems associated with past mining at a mine in the Witbank coalfield, South Africa: Bullock SET, Bell FG 61
Stable isotopes and heavy metal distribution in *Dreissena polymorpha* (Zebra Mussels) from western basin of Lake Erie, Canada: Al-Aasm IS, Clarke JD, Fryer BJ 122
The environment, composition, and protection of Dazu rock inscriptions: Wang YX, Hua PD 295
The groundwater resources and sustainable yield of Cheju volcanic island, Korea: Hahn J, Lee Y, Kim N, Hahn C, Lee S 43
The role of geomorphic processes in the transport and fate of mercury in the Carson River basin, west-central Nevada: Miller JR, Lechler PJ, Desilets M 249

Memorial

Memorial to Professor Raphael G. Kazmann: LaMoreaux PE 223

Overview

An overview of trace metals in the environment, from mobilization to remediation: Larocque ACL, Rasmussen PE 85
